# WILDLIFE ENCOUNTERS

The Mackay Region is full of diverse wildlife, whether it's the wallabies and kangaroos on the beach, the platypus and birds in the rainforest, or the spectacular fish found in the creeks, dams and rivers...you won't have to search far for a wonderful wildlife experience.

## Top 6 Wildlife Encounters

### ✓ WALLABIES AT SUNRISE, CAPE HILLSBOROUGH NATIONAL PARK

Capture a quintessential Australian experience at sunrise when the wallabies and kangaroos come to feed on the shoreline at Casuarina Beach, Cape Hillsborough National Park. Best of all, this bucket-list experience is free!

**TIP:** Those who stay overnight at the tourist park overlooking the beach will get to experience wallabies and kangaroos relaxing at the park throughout the day.

### □ PLATYPUS IN THE WILD, BROKEN RIVER, EUNGELLA NATIONAL PARK

Broken River is touted as one of the best places in the world to spot a platypus! The tranquil, freshwater environment and the purpose-built platypus viewing platforms near the Visitor Information Centre and café are the perfect places to see these shy creatures when they rise to the surface.

**TIP:** Platypus have sensitive hearing and are easily disturbed. Sit quietly and watch for air bubbles rising to the surface of the water.

### □ DISCOVER DUGONG, CLAIRVIEW BEACH

The small coastal town of Clairview, famous for its fishing and crabbing, is also home to a protected sanctuary for the endangered dugong. These gentle sea creatures can be spotted from the beach or the boat.

**TIP:** Dugongs are more closely related to elephants than to whales or dolphins and can graze on up to 30 kilograms of seagrass per day.

### □ WHERE ARE THE WHALES?

Each year between June and November, you can catch a glimpse of humpback whales as they migrate north along Australia's eastern coastline. The purpose-built whale watching platform at Lamberts Beach is a great place to spot these magnificent creatures.

**TIP:** Enjoy a glimpse of the whales all year round at the Slade Point Water Tower at Lamberts Beach with a majestic, 18-metre-high whale painting.

### □ BRILLIANT BIRDLIFE

Mackay has some of the most diverse birdlife, thanks to the region's unique ecosystems. Close to the city, you'll find birdlife at the Kommo Toera Trail and The Mackay Region Botanic Gardens, while migratory shorebirds can be seen along Sandfly Creek Reserve, and the endemic Eungella Honeyeater in the rainforests of Eungella National Park.

**TIP:** St Lawrence Wetlands is home to over 100 different bird species and celebrates its birdlife with a special wetlands weekend in June.

### □ FISH ARE FLOURISHING

For world-class recreational fishing, look no further than The Mackay Region. Within 45 minutes of Mackay, you can be fishing at a tropical reef, rainforest stream, blue water river, a sandy estuary or an inland dam.

**TIP:** Catch that legendary metre-plus barramundi by hiring a fishing charter or try your luck at one of the inland dams.

*I have really loved exploring The Mackay Region. There is so much to discover. From going out mud crabbing with some friendly locals to being camped out high in the hinterland watching platypus swim in the creek. I have watched the sunrise with some friendly kangaroos and explored beautiful beaches. There really is such a huge diversity in the region and that's why I keep coming back.*

## INSHORE RIVERS & CREEKS

The mangrove-lined creeks of The Mackay Region create bountiful fish habitats. Nowhere is this more evident than the net-free zone that stretches from St Helens Beach to Cape Hillsborough. This net-free zone and the many creek systems around Mackay are a bonanza for recreational anglers, offering a practically endless list of exciting fish species. Dreaming of catching that magical metre barramundi? Mackay is your destination.

## FRESHWATER IMPOUNDMENTS

Spectacular freshwater fishing exists right across The Mackay Region. Located within 90 minutes of Mackay are three freshwater impoundments. Kinchant and Teemburra Dams are famed for their barramundi, whilst Eungella Dam is home to monster sooty grunter. Theresa Creek Dam near Clermont is also stocked. The strike of a sooty grunter always brings anglers back for more.

## LAND-BASED FISHING

No boat? No worries! The Mackay Region offers lots of possibilities for the land-based angler. The region's 31 beaches, the marina, and several jetties along the Pioneer River all allow easy access for anglers to target anything from bream to barracuda. Heading into the freshwater, the fantastic fishing doesn't stop, with sooty grunter and even saratoga to be found.

*I love travelling and fishing in Australia and with my job I get to fish up and down the East Coast.*

*I always find myself, however, gravitating to The Mackay Region, particularly Teemburra and Eungella dams. Not only is the fishing for barramundi and sooty grunter amazing, these are also some of the most picturesque lakes in the country.*

The sheer variety of species on offer makes the offshore fishing from Mackay world class.

Cape Palmerston

# ISAAC INLAND

Breathe in the fresh country air, soak up the interesting history and try your hand at striking gold. Head inland to slow down and enjoy the serenity of the Isaac Region.

## Four Ways to Enjoy Isaac Inland

### ☑ GEMINI PEAKS

Gemini Peaks form part of the Cosgrove Hotspot, the world's largest continental volcanic chain. Gemini Peaks is located within the Peak Range National Park which consists of four sections; Wolfgang Peak, Eastern Peak, Lord's Table Mountain and Gemini Mountains.

### ☐ CLERMONT HISTORICAL CENTRE

This interactive historical centre contains information and artefacts related to the area's rich and diverse history. Relive stories of courage and tragedy with the Flood of Memories Exhibition and visit the Piano in the Tree – an eerie reminder of the height of the water during one of Australia's worst floods. Other items on display include historical mining machinery, Clermont's original Fire Brigade truck and vintage cars.

### ☐ GOLD PROSPECTING

Try your hand at striking gold in Queensland's most accessible goldfields surrounding Clermont. With 11 General Permission Areas available, there's plenty of places to try your luck.

Visit the abandoned mining town of Mount Britton (approximately a 35-minute drive north-east of Nebo), founded in 1880. While the buildings are long gone, the old grid of streets are dotted with interpretive signage that retains a sense of what once existed. Explore the old mining relics and visit the nearby pioneers' cemetery.

### ☐ THERESA CREEK DAM

Located south-west of Clermont, this large outback oasis is ideal for swimming, camping, fishing and water skiing. Enjoy a day trip with lunch at the kiosk or stay overnight for the full experience.

### Did you know?

It is estimated that more than 7,380 kilograms of gold was recovered in the Clermont Goldfields between 1861 and 1901.

**Main Photo:** Lord's Table Mountain.

**Top Row:** Theresa Creek Dam; Kangaroos at Middlemount; Wolfgang Peak.

**Bottom Row:** Gold prospecting at Clermont; The Gemini Peaks.

## While you're here...

The Isaac Region is made up of new and old mining towns. Spend a few days exploring the entire region to discover a world of history, charm and prosperity.

**NEBO** This cattle-grazing town features a heritage-listed pub built in 1862 and the Historic Nebo Museum.

The annual Nebo Rodeo is the region's largest event, attracting competitors and viewers from across the country. It's been touted as one of the best rodeo events in Australia!

**MORANBAH** Featuring new and modern facilities, Moranbah was created specifically for miners and their families. Enjoy the modern-day town centre with water feature, children's play area and a place for adults to enjoy coffee.

**TIP:** Follow the one-kilometre Federation Walk at Moranbah's entrance to the town's Big Red Rhino Bucket.

**LAKE ELPHINSTONE** This lake is one of the region's best natural highlights and is a popular spot to set up camp, fish, bushwalk or kayak. Lake Elphinstone has toilets, showers, a boat ramp and picnic tables and offers birdwatching and wildlife encounters.

**FACT:** European maps suggest Lake Elphinstone was a meeting point for Indigenous tribes. Rock art paintings are known to exist at nearby Burton Downs.

# ISAAC COAST

The Isaac Coast is home to rustic beachside communities nestled along a relatively undeveloped yet accessible stretch of shoreline and features interesting wildlife.

## ✓ ST LAWRENCE

The town may be small, but it is big on attractions, featuring a heritage-listed Anglican Church built in 1898 and cemetery dating back to the mid-1800s. The St Lawrence Wetlands are a drawcard for nature lovers. The area has abundant birdlife, with 92 bird species recorded including nationally threatened waterbirds.

Visitors can enjoy camping at the St Lawrence Recreation Grounds with views to the wetlands or drive up the Connors Range to Schneider's Inn Lookout to experience panoramic views of the wetlands, coastline and islands.

## □ CLAIRVIEW

A palm-tree lined stretch of golden sand makes Clairview the perfect spot to pull up for a few days, weeks or even months!

Famous for its crabbing and fishing, Clairview is also home to a

protected sanctuary for dugongs, an endangered marine mammal. You may be lucky enough to see one from the beach.

The boat ramp provides easy access for a day on the water or relax at one of the beachside picnic spots and view turtles swimming in the area.

## □ CARMILA

A blend of beachfront bliss mixed with country character, Carmila's main industry is cane growing with harvesting season between May and November.

Carmila Beach is an unspoilt paradise and offers a nearby convenient three-day rest and camping area. Facilities include toilets, barbecues, picnic tables and boat ramps.

Hike or take a 4WD excursion to Flaggy Rock Bluff for breathtaking 360-degree ocean and rural views.

## □ GREENHILL & ILBILBIE

These idyllic locations have wonderful views of the ocean and surrounding districts. There's onshore, estuary and offshore fishing near local reefs and islands and plenty of bushland for keen walkers to take advantage of magnificent views.

Visit Yarrowonga and Notch Point Reserves to go camping, fishing and crabbing.

Turtles nest on local beaches from October to January.

Access to Cape Palmerston National Park (Page 20 – 21) is via Greenhill Road for 4WDs only.

**Main Photo:** The beach at Clairview is the perfect relaxation spot.

# WHY MACKAY?

*She's the voice on over a billion GPS and smartphone devices worldwide and helps travellers arrive safely at their destination every day. We ask Siri... why Mackay?*

When it comes to travel advice, who best to ask than Mackay-born Karen Jacobsen (aka Siri), who has found herself back where she grew up.

**Tell us about your association with The Mackay Region?** I was born in Mackay, as was my Mother and her family. In fact, my Great Grandfather was Mayor of Mackay. I went to North Mackay Primary and North Mackay High School and left to go to Uni when I was 17.

**What are some of your fondest memories of the region?** Visiting the Whitsundays on the Three Island Royleen Cruise was a huge highlight when I was growing up. As a Girl Guide I visited Eungella, and had many fun times at the playground at the harbour. As I was in love with the arts, the Theatre Royal lives in infamy for me, and it was amazing to see photos of the building in the green room at the MECC.

**Now that you are situated back in the region, what have you been impressed by?** It's been incredible to feel so welcome here. I'm in love with the tropical plants and of course the majestic sugar cane.

**What kind of changes have you seen?** The development in Mackay is astounding. The entire area between Mount Pleasant Shopping Centre and the Ron Camm bridge was sugar cane fields when I was growing up, as well as the harbour development. The Marina is striking.

**What have you enjoyed about living in the region so far?** We absolutely love waking up and looking out at the Coral Sea and the boats. We've been back and forth from the Whitsundays to Mackay a number of times and the landscape makes my heart happy. Palm trees, sugar cane fields, the sunshine and walking along the boardwalk at Airlie Beach are all divine.

**Where is your favourite place in the world?** For a long time I have had a love affair with Hawaii, but the Whitsundays, in particular Hayman Island has been my dream location since childhood. We've had the pleasure of spending an extended period on Hamilton Island and look forward to more time there in the future. Perhaps our dream of Hawaii has recalculated to the Whitsundays.

**What are your plans for travelling in the future?** Our home currently sits like a time capsule in the centre of Manhattan. We will be here for as long as it takes to make sense to go back, whether that's a year or more or much more than we imagine. We feel very connected to this region and plan to spend significant time here every year, but like most of us during this worldwide pandemic crisis, we are recalculating.

Action Charters has been showcasing the Mackay region to happy customers for more than 10 years now.

Action Charters offers a wide range of extra-value day trips such as whale watching tours, Island getaways, spearfishing trips and of course fishing charters. The crew is happy to customize any of their experiences to ensure that your day on the water is one you'll never forget.

You can experience this fishing and boating paradise in either of the two vessels available for charter; Lone Wolf II and The Gun.

Lone Wolf II is a 25ft Contender powered by 2x 200hp Yamahas and can comfortably take four passengers.

The Gun is a 30ft Contender powered by 2x 300hp Yamahas and can comfortably take up to five passengers.

Both vessels are built for speed and comfort and are maintained to the highest standard.

Fishing charters are customized to chase the species that you want to target whether that be bottom bashing in the deep water for Nannygai and Red Emperor, fishing reef edges for Coral Trout and Red Throat Emperor or if sports fishing is your thing chasing the larger pelagic such as Spanish Mackerel, GTs and even bill fish.

Action Charters supplies everything you will need for the day including rods and reels, bait, tackle, lunch, snacks and drinks for the day.

Your catch will be put on ice ready for you to take home at the end of the day.
